Bachelor of Business Information Technology

Strathmore University
School of Computing and Engineering Sciences

Achieve excellence in your chosen profession
Bachelor of Business Information Technology

This degree will provide you with a fundamental knowledge of IT along with skills in key areas including cloud computing and mobile application development. It will enable you to keep your options wide open in the IT industry.

As a graduate of this degree, you will:

- have specific knowledge of particular development tools (languages, operating systems, development environments)
- be able to analyse design and implement up-to-date computer-based systems
- have sound lifelong learning skills.

These skills will ensure that you will be at the forefront of this vibrant and rapidly developing sector.

CAREER OPPORTUNITIES

The flexibility of this degree leads to a diverse range of career opportunities, as each student gets to put their own stamp on their degree. Some students may choose to add breadth to their studies with a wide variety of electives, whereas others may select electives that focus on a particular area of interest. Potential career opportunities include:

- Network manager
- Applications developer
- Programmer
- Software engineer
- Systems analyst
- Multimedia developer
- Database administrator
- Project manager
- IT consultant

BBIT was the perfect course for me. I was looking for a combination of the two passions I had in business and IT. I was very excited when I joined Strathmore. I did my community based attachment which is mandatory for all Strathmore students, in Egypt through AIESEC. My whole kind of thinking shifted during this experience. I started CLEM Creative Computing in order to bring my different ideas into the world. The business offers different products that include; PesaWay – a product we partnered with a bank to offer bulk collection, bulk payments, escrow services and a point of sale system currently being used by Eveready East Africa Limited, and finally we customize systems for other clients. My partner and I developed our company from earning about Kshs. 700,000 per year to about Kshs. 3.8 million in a span of one year. We started the company with two people but now we are 11 people.

Eric Mabusi  
BBIT graduate student

Why Strathmore University?

Our Brand Education
Strathmore shapes global leaders for tomorrow. Our market-oriented courses, industry linkages and opportunities outside the classroom, provide positive career outcomes for our students in the chosen fields.

Mentoring
Strathmore University has a mentoring system in which one-on-one sessions between mentor and students aim to bring the integration of knowledge, skills and values down to the personal level.

Our Graduates
Employers attest that Strathmore graduates distinguish themselves by their work ethics and discipline.

International Experience
Strathmore provides global exposure to students through international academic trips to expand their knowledge.
