Bachelor of Science in Supply Chain & Operations Management
Programme Objective
The Bachelor of Science in Supply Chain and Operations Management programme is designed to integrate supply chain, logistics, operations and digitalization. Special emphasis is placed on Production 4.0, Logistics 4.0, Big Data, Blockchain, automation and artificial intelligence and how they will impact Supply Chain and Operations in the near and far future. It exposes students to a better view of the supply chain with emphasis on the flexibility and performance in a complex and uncertain business environment. A career in supply chain and operations management is an appealing prospect to those who want to work in logistics, transportation, supply chain management, inventory and warehousing, sourcing and purchasing, supply chain systems, and planning and control activities. Students are well prepared to work in a wide range of careers in the private sector, government and not-for-profit organization.

Why Strathmore University?

Our Brand Education
Strathmore shapes global leaders for tomorrow. Our market-oriented courses, industry linkages and opportunities outside the classroom, provide positive career outcomes for our students in their chosen fields.

Mentoring
Strathmore University has a mentoring system in which one-on-one sessions between mentor and student aim to bring the integration of knowledge, skills and values down to the personal level.

Our Graduates
Employers attest that Strathmore graduates distinguish themselves by their work ethic and discipline.
